

25X1

25 YEAR RE-REVIEW

SECRET

11 December 1963

*for future reference*

25X1

Mr. [redacted]

In answer to the two questions asked relative to lateral transfer from QP furniture posts to non-QP furniture posts, I fail to find Agency regulations, as such, which clearly spell out Agency policy relative to such transfer. I do, however, find regulations from which conclusions can be made.

25X1

(a) [redacted] states that the Operating Division Chiefs shall make the determination relative to furniture and furnishings for Agency quarters overseas [redacted]

25X1

25X1

(See Regulation attached)

25X1

(b) [redacted] states that employees may be authorized to ship and/or store their effects in connection with authorized PCS travel to, from, or between posts abroad including travel for emergency evacuation.

25X1

25X1

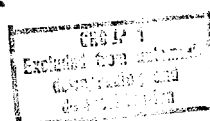

(c) Therefore, should a Division issue PCS orders for transfer of an employee from a QP furniture post to a non-QP post, I would conclude that his effects, by regulations, would be authorized to be shipped. To authorize purchase of QP furniture might upset the [redacted] Station policy of the non-QP furniture post.

25X1

(d) In conclusion, I would say that such authorization would rest with the Operating Division, Hqs., in conjunction with Station policy as approved by the Division and such decisions would be made on a case-by-case basis.

[redacted]

SECRET

Policy of AF Division in Providing Quarters and Furniture Under  
Previous Housing and Furniture Regs.

25X1

At the remaining Stations and Bases in the AF Division quarters have been leased under private lease under quarters regulations and no limits have been placed by the Division on the authority of the COS or COB in exceeding the standard allowances.

25X1

It has been the AF Division policy to provide furniture through local purchase rather than ship the employees personally-owned furniture, except at ☐ stations to which personally-owned furniture is shipped or rented locally.
